

WHAT IS VOIP?

Voice over Internet Protocol (VoIP) is a technology that allows you to make voice calls using an Internet connection instead of a regular, analog phone line.

VoIP services work with your computer or a VoIP phone.

BENEFITS

- Professional features your business needs without breaking the bank
- Routing calls where you need them- no more busy signals
- No hidden fees
- All features included in every plan
- Scalable: You only pay for the capacity your business requires
- 24/7/365 Support

KEY FEATURES

- Visual dial plan editor
- Detailed call reporting
- Conference bridge
- Multiple auto-attendants
- Multiple ring groups
- Unified messaging
- Day and night modes
- Online PBX controls
- Flexible routing

Voice over IP

Save some money on your voice systems without creating stress about call quality or worrying about extra fees. Our all-inclusive Voice over IP hosted phone system has a comprehensive feature set at a fixed monthly fee.

Need conference calling, included. Need find-me/follow-me, included. Need call queues with real-time reporting, included. You get the idea...use what you need and don't worry about some "add-on" fee next month. Plus, our hosted phone system is month-to-month too. Never feel like a hostage again!

VoIP in the US: Market Research from IBISWorld reports Voice over Internet Protocol (VoIP) experienced massive growth at the start of the past five-year period with annual growth at 15.1%

How VoIP/Internet Voice works

VoIP services use the internet to convert your voice to a digital signal. This technology enables the user to make a call wherever there is a broadband or high speed internet connection and a computer, adapter or VoIP phone.

VoIP can save you money on your voice systems. Plus, there is no reason to worry about call quality or extra fees. NexusTek has engineered the system to provide reliable, high definition calls with all the features you need for a fixed monthly fee. With **conference calling**, **find-me/follow-me**, and **call queues**, included – use the features you need without the worry of some add-on fee.
