

# Expand Your Team. Accelerate Your Vision. Azure Experts When You Need Them—No Hiring Required.

## Azure Services – Expert Staff Augmentation

Sometimes the fastest way to accelerate success is to **expand your team with specialized expertise**. NexusTek's Azure Services – Expert Staff Augmentation provides **on-demand access to certified cloud architects, engineers, and specialists** to strengthen your team and deliver outcomes faster—whether for short-term projects, long-term engagements, or specialized Tiger Teams.

Finding, hiring, and retaining **top-tier cloud talent** is increasingly difficult and expensive for enterprises. Recruiting can take months, salaries are rising, and once hired, keeping specialized talent engaged and retained presents a major operational risk. By partnering with NexusTek, customers eliminate the burden of recruiting, onboarding, and retaining niche technical talent—while gaining **immediate access to proven, certified experts** who can start delivering value on day one.

### WHO IT'S FOR

#### IT Leaders

CIOs, CTOs, and IT Directors needing expert resources to accelerate delivery.

#### Cloud & Infrastructure Managers

Seeking to augment their operational capacity or project delivery.

#### Engineering & DevOps Teams

Looking to extend their capabilities.

#### Security & Compliance Leaders

Needing to strengthen cloud security and governance.

#### Project & Program Managers

Searching for specialized teams to support strategic initiatives.

### KEY BENEFITS

#### Accelerate Project Delivery

Add specialized skills without the delays of recruiting or training.

#### Expand Team Capacity On-Demand

Quickly scale up or down based on business needs.

#### Gain Access to Certified Experts

Leverage NexusTek's deep bench of certified Azure and multi-cloud professionals.

#### Drive Better Business Outcomes

Align the right talent to your most critical priorities.

#### Reduce Risk on Complex Initiatives

Rely on experienced specialists and Tiger Teams to guide delivery.

#### Avoid Hiring and Retention Challenges

Skip the cost and risk of hiring full-time talent and gain immediate productivity.

#### Flexible, Cost-Effective Resourcing

Avoid long-term staffing overhead with as-needed expert augmentation.

## HOW IT WORKS

While NexusTek delivers fully managed, outcome-based Azure solutions, we recognize that sometimes what customers need most is extra hands or expert minds to complement their own teams. NexusTek's **Azure Services – Expert Staff Augmentation** provides **flexible access to certified professionals** across a wide range of **cloud, security, data, and infrastructure specialties**.

We offer **fractional, full-time, short-term, or long-term** engagements to meet your resourcing needs—whether you need a single Azure Architect, a multi-cloud SRE, or a Tiger Team purpose-built to address complex, cross-functional challenges.

Our experts are fluent in **Azure-native services** such as:

- Azure Landing Zones, Azure Policy, Azure Arc, and Microsoft Defender for Cloud
- Infrastructure as Code (Terraform, Bicep, ARM Templates)
- Azure Monitor, Log Analytics, and Application Insights
- Azure DevOps and GitHub Actions for CI/CD pipelines

- Azure Virtual Desktop (AVD) and hybrid VDI environments
- Microsoft Fabric, Power BI, and Azure Synapse for data analytics
- Azure OpenAI, Cognitive Services, and GenAI readiness
- Zero Trust Architecture, Microsoft Entra ID (Azure AD), and Identity Governance

We support projects ranging from cloud platform engineering and data platform modernization to AI infrastructure readiness, security hardening, site reliability engineering, and cloud cost optimization. NexusTek's Tiger Teams bring together a cross-section of experts—cloud architects, security engineers, data specialists, and DevOps resources—to tackle your most critical and complex initiatives.

Whether you need **strategic guidance, operational support, or specialized execution**, NexusTek delivers the right expertise, at the right time, with the right fit for your business—without the long-term hiring risk.

## FEATURES

### Certified Azure and Multi-Cloud Experts

Cloud Architects, SREs, DevOps Engineers, Security Specialists, Data Engineers, and more.

### Flexible Engagement Models

Fractional, full-time, short-term, or long-term support.

### Tiger Team Capability

Purpose-built, cross-functional teams for complex projects.

### Azure-Native and Multi-Cloud Experience

Deep expertise across Azure, AWS, GCP, and private cloud.

### Broad Skill Coverage

Cloud architecture, security, DevOps, data, AI, VDI, FinOps, ITSM integration, and more.

### Project-Based or Team Augmentation

Expand your team or offload specialized projects.

### Reduced Hiring Overhead

Eliminate recruiting, onboarding, and retention challenges.
