

DON'T IGNORE THE SIGNS

IT support is essential to running a business.

But, what if your IT provider was unable to offer you support?
Here are a few of the impacts it would likely have:

WITH NEXUSTEK

SCENARIO

NO IT PROVIDER

Troubleshooting is available with domestic subject-matter experts available 24/7

AT MIDNIGHT, YOUR COMPANY'S EMAIL STOPS WORKING

You will need to find a resource that can troubleshoot the issue, after hours

Emergency response is available to your business when you need it the most

YOU'RE HIT WITH A CYBERSECURITY ATTACK

Employees spend valuable time using "trial-by fire" methodology

One call into our NOC and your solution is solved

YOUR WINDOWS PASSWORD IS LOCKED

Identify who your Microsoft administrator is and hope that they are available

With the right service, data is backed up and is accessible in the cloud. And, new servers can immediately be ordered

THERE IS A FLOOD AND YOUR SERVERS ARE DAMAGED

Data can be lost, and you'll need to find a vendor to replace the damaged servers

NexusTek will recommend the right laptop and handle the procurement and setup

YOU NEED TO PURCHASE LAPTOPS FOR YOUR REMOTE WORKERS

A trip to a computer retailer and a non-standard setup

NexusTek has years of experience migrating critical applications to the cloud

YOU NEED YOUR ACCOUNTING SOFTWARE TO BE ACCESSIBLE VIA THE CLOUD

After many calls and quotes, you may have to work with an untrusted 3rd party for this migration
